The system lacks a feature 'View Status' to track the status of announcements. e. Share option not functioning after creating announcements. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. When creating an announcement, more options(wings) are visible than are actually available. b. Announcements are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. c. The system lacks a feature to track the status of announcements. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. In-app Notifications are required.

27	Event	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. After creating an event and pressing the 'Save Event' button, two identical events are created instead of one. b. Edit option glitch sometimes after event creation. c. After creating an event, clicking on the event should open the event details page, displaying the wings section with attendance status and a send reminder option. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Events are being created, but the system is not prompting for a time duration, which is a required field. b. Events are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. c. Error in creating event. d. No option to view event status and no option to send reminder. e. No option to edit or delete events. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. In-app Notifications are required.
28	Voting	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. While Creating voting the participation options should be labeled as 'Society Members' and 'Committee', rather than 'Type 1' and 'Type 2'. b. Secret/Open voting buttons unresponsive. c. Single Choice/Multiple Choice voting buttons unresponsive. d. Voting options are missing from the creation interface. e. Close Voting button should prompt 'Confirm Close Voting?' (Yes/No) and then display Download Options. f. Download button for voting results not functioning. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Voting details contain errors. b. When creating a vote, the system is not prompting to specify the voting options, such as the choices or candidates to be voted on. c. Participant list shows incorrect wing details. d. Voting is being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. In-app Notifications are required. b. Download option is non-functional. c. User also have access to delete the voting.

		<ul style="list-style-type: none"> g. Voting statistics display inaccurate information. h. Unable to access wings or send reminders after clicking View Participants. i. Black screen displayed after clicking delete on voting. 		
29	Resources	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Resources addition does not update corresponding note and amount. b. Added resources disappear after revisiting the page. c. Date-specific filter option fails to display corresponding information. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Unable to add or save resources. b. Only a user can book resources, but the user account hasn't been added, so booking resources isn't possible. c. The 'Save' button is non-functional when attempting to add a new resource. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. Both Admin and user has same functionality, where both can update and delete the resources. b. The edit access should be only for admin. c. Book Now Option is missing to book the resources. d. In app Notifications required while booking the resources.
30	Internet Speed	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Start Upload Test button fails to initiate speed test. b. Start Download Test button fails to initiate speed test. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The internet speed tester tool appears to be functioning, but unsure if it's accurately measuring and reporting my internet speed. 	<p>Working</p>

31	Proposals	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Proposals creation form only allows single wing selection, whereas multiple wing options should be selectable. b. Two proposal sections required: Open/In Progress and Closed. c. Filter functionality missing in proposal section. d. Option to download all proposals as PDF is missing. e. Proposals are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. When creating proposals, the system is displaying incorrect or mismatched wings. b. Proposals are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. Wing Information is showing after creating the proposal but not asked while creating proposal. b. In-app Notifications are required. c. Required Chat Screen while selecting the particular proposal.
32	Suggestions	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Two Suggestions sections required: Open/In Progress and Closed. b. Filter functionality missing in suggestions section. c. Option to download all suggestions as PDF is missing. d. Suggestions are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Suggestions are being created, but there's no way to confirm if notifications are being sent. To verify notification status, members need to be added. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. After Clicking 'Save Suggestion' it taking time to go back and if we press twice its saving twice. b. In-app Notifications are required. c. Required Chat Screen while selecting the particular proposal.

33	Wings	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Edit option for number formatting is missing in Wings. b. No 'Setup Again' option available in Wings. c. Wings section displays incorrect number formatting of units. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The system lacks a feature to edit or reconfigure existing wings and setup again. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. The Wing – C is failed to show that particular wing information. b. Edit the Wings option is required.
34	Building Info	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Blocks and code options should be non-editable. b. Code changes should be read-only, not editable. c. Add billing information to Building Information section. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The building information is not editable, lacking an 'edit' feature to update the details. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. The Updated information is not updated in User View.
35	Rules	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Text formatting options (bold, italic, points, underline) are not applying when adding rules. b. Selecting a rule redirects to edit mode instead of view mode. c. Separate edit functionality required for existing rules. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. An unnecessary 'select date' field has been added, which is not required for the process. 	<p>Working</p>

36	Documents	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Separate edit functionality required for existing documents in society and user sections. 	<p>Not Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The documents field is incorrectly showing rules field, which should be separate their own designated section. b. There is no 'add field' or 'upload' option to attach or add documents, making it impossible to include necessary files. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. The User Should not have option to add or delete the document.
37	Bank	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Someone else's information visible in my account. b. Require additional details (bank name, UPI ID, account name, address) when adding a bank account. c. Selecting any bank account redirects to edit mode instead of view mode. d. Separate edit/delete functionality required for existing bank accounts. 	Working	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. Add a delete option to delete the existing bank accounts. b. Here Users have the access to change the bank details. Only view option should have to the Users.
38	Payment Gateway	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The payment gateway settings appear to be functioning correctly, but it's unable to confirm if they're working as intended because no bills are being generated, since no members have been added. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The payment gateway settings appear to be functioning correctly, but it's unable to confirm if they're working as intended because no bills are 	(Removed)

			being generated, since no members have been added.	
39	Gate Keepers	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Gatekeeper mobile number not displaying after addition, shows 'No number' default message. b. Other gatekeeper details non-editable, except name, shift, and phone number. 	Working	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. Users should have only the View access. b. All the details should be visible which are adding when we are creating the gate pass.
40	Gates	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Unable to add new gates due to image upload issue. b. Selecting any gate redirects to edit mode instead of view mode. c. Separate edit/delete functionality required for existing gates. 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The gates feature is functioning correctly, but the expected popup window is not appearing. 	<p>Working</p> <p>Issues:</p> <ul style="list-style-type: none"> a. Users should have only the View Access. b. Add a delete option to delete existing gates.
41	GatePass	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. Gate pass creation should require 'Number of Persons' and 'Address' details. b. Share option non-functional after gate pass creation. c. Should Include 'Visit History' option in gate pass.' 	<p>Working</p> <p>Reason:</p> <ul style="list-style-type: none"> a. The gate pass system is not requesting or validating the 'Valid From' and 'Valid To' date and time range for visitor information, which is a crucial detail for tracking and managing visitor access. b. The gate pass system is not requesting or collecting the mobile number of visitors, which is a crucial contact detail for communication, security, or emergency purposes. 	<p>Working</p> <p>Issues:(For Both One Time and Recurring)</p> <ul style="list-style-type: none"> a. Duration set to default, if we select date (i.e., 27-12-2024) it's not changing it is set to default (i.e., todays date and next day's date (24-12-2024 to 25-12-2024)). b. Share button is non-functional. c. All the details should be visible which are adding when we are creating the gate pass.

			<ul style="list-style-type: none">c. The gate pass system is not generating a unique Gate pass ID and corresponding QR code for visitors, which is2 essential for identification, tracking, and secure access.d. There are no options to contact the visitor via phone or share gate pass details.e. The gate pass system only provides a delete option, but it immediately deletes the gate pass without prompting a confirmation message, such as 'Are you sure you want to delete this gate pass? Yes/No', which could lead to accidental deletions.f. The gate pass system lacks a feature to expire or automatically invalidate gate passes after a certain period, making it difficult to manage and control access effectively.
